**Presentation Summary:**

A member of the facilities group from Manitoba Hydro, who is to be determined, will provide the presentation.

The presentation will summarize the many energy-efficient and healthy workplace features included in the building design. Its revolutionary design includes the following features:

- use of geothermal heating and cooling
- ultra-clear windows and a double wall exterior
- humidifying water features
- solar chimney
- positioning such as to take maximum advantage of the southern sunlight and minimize northern exposure
- natural ventilation which minimizes the need for a forced-air circulation system
- living green roof

Earlier this year, Manitoba Hydro Place was honoured with a prestigious award from the Council on Tall Buildings and Urban Habitat who named it “2009 Best Tall Building for the Americas”.
